SUMMARY

As a detail-oriented and highly motivated fitness professional, I've developed exceptional communication, interpersonal, and creative thinking skills that I'm eager to apply to a new challenge in the tech industry. With experience in data analytics and wearable technology, I'm excited to leverage my transferable skills to contribute to a tech company's success. I'm passionate about exploring new technologies and am confident that my work ethic and enthusiasm for the industry would make me a valuable addition to any tech team.

TECHNICAL SKILLS

HTML5, CSS3, JavaScript ES6+, APIs, Node.js, Express.js, MySQL, Sequelize, Test-Driven Development(TDD), Object-Relational Mapping(ORM), Model-Controller-View(MVC), React, MERN, NoSQL, Progressive Web Applications(PWA), MongoDB, Mongoose, GraphQL, GitHub, VSCode

PROJECTS

Upliftify AI | github.com/TyGosley/upliftify-ai | young-fjord-87533.herokuapp.com/

- Summary: MERN stack application gives users recommendations to change or enhance their feelings. Future developments underway to utilize Artificial Intelligence to give the user a unique experience
- Role: Front-End designer, Back-End Development
- Tools: React, JavaScript, React-Bootstrap, MongoDB, GraphQL, Node.js, Express.js

Text Tron | github.com/TyGosley/text-tron | peaceful-citadel-63619.herokuapp.com/

- Summary: The Text Tron text editor is a simple application that can function online and offline.
- Role: Front-End designer, Back-End Development
- Tools: JavaScript, HTML, CSS, Node.js, Express.js, Webpack, Workbox

Weather App | github.com/TyGosley/city-weather-monitor | tygosley.github.io/city-weather-monitor/

- Summary: The City Weather Monitor will help users find a major city's current weather as well as a 5-day forecast. The weather will display the date, temperature, wind, and humidity. Each search creates a history button that can be clicked to see your previously searched city's weather.
- Role: Front-End designer, Back-End Development
- Tools: JavaScript, HTML, CSS, Bootstrap, JQuery
